

In lieu of a more comprehensive post I'd love to share some of my recent thoughts from LinkedIn.

### [Never Forget the Checklist](#)

A simple but hopefully easy and obvious solution to complex problems.

### [There Are Only Two Types of Software](#)

At the end of the day software either works, or it doesn't.

### [Engineering Happiness via Quality Culture](#)

How to engineer happiness and quality culture on an engineering team.

### [Empathy](#)

Empathy is at the root of most things. Or at least I argue it should be.
